

CASE STUDY

COLLEGIATE STUDENT UNION

Memorial Student Union Arizona State University Phoenix, Arizona

DUCTZ NST mobilized to the Memorial Union on the campus of Arizona State University as part of the recovery and restoration team after fire and smoke impacted the building and its HVAC system. The project scope included restoring multiple duct systems and air handler units (AHUs) supplying conditioned air to four floors within the facility. Work was accomplished in a three month period with a crew size of about 25 trained technicians.

The DUCTZ National Service Team (NST) Professionals are equipped to help with virtually any indoor air quality concern or emergency.

- Fire and Water Damage Restoration
- Cleaning of HVAC Systems
- Hygienic Cleaning of Mechanical Systems
- Maintenance Cleaning Programs
- Mechanical System Evaluations
- Project Management & Oversight
- Certified & Trained Technicians
