Mid-Michigan HVAC Company Wins DUCTZ National Franchisee of the Year

Doug Warren, franchise owner of DUCTZ of Mid-Michigan in Jackson, was named the DUCTZ 2020 Franchisee of the Year.

Warren and his team have been part of the DUCTZ network since 2008.

“Recognizing a dedicated DUCTZ team who supports and encourages the core model and culture makes this the biggest DUCTZ Award each year,” says Rick Bohdel, president of DUCTZ. “The Franchisee of the Year is a common franchise system award, but DUCTZ gauges these awards on so many facets, including engagement, interaction, support, compliance within the brand parameters. It is so important to set your Franchisee of the Year as the example to be recognized in front of the entire system.”

Warren is a member of the DUCTZ Franchise Advisory Council, mentoring fellow franchisees, and was nominated as the Small Business Person of the Year by his local chamber of commerce.

DUCTZ provides improved indoor air quality to homes and businesses across the country, producing a healthier and safer environment with air duct cleaning,

HVAC restoration, coil cleaning and dryer vent cleaning. Indoor air quality has become a major concern in schools, healthcare facilities, hotels, and office buildings, and DUCTZ technicians are trained to properly restore HVAC systems to more efficient operation.
