

Help Protect Your Indoor Air Quality This Wildfire Season

877-382-8987

www.DUCTZ.com

1. Seal Up Your Space

- ☐ Close all windows and doors
- ☐ Use weather stripping or towels to block gaps
- ☐ Limit use of exhaust fans that pull outdoor air inside

2. Create a “Clean Room”

- ☐ Choose a room with few windows and doors
- ☐ Run a HEPA-filter air purifier
- ☐ Avoid activities that reduce air quality (ex: burning candles, vacuuming without HEPA)

3. HVAC System Preparations

- ☐ Replace HVAC filters
- ☐ Turn HVAC to recirculate mode
- ☐ Turn fan to ON position
- ☐ Schedule professional duct and vent cleaning with DUCTZ

4. Extra Tips for Businesses

- ☐ Check and replace rooftop filters
- ☐ Clean or inspect commercial ductwork
- ☐ Schedule maintenance during off-peak hours

5. General Tips

- ☐ Avoid using ozone generators or unproven air cleaning devices
- ☐ Keep indoor humidity levels low
- ☐ Monitor local air quality alerts
